EDUCATION

- **The Open University of Sri Lanka**
  Bachelor of Software Engineering (Hons) Undergraduate
  (2021 - 2025)

- **Dharmaraja College, Kandy**
  (2010 - 2019)

G.C.E (A/L) -
- ICT - C
- Science for Technology - S
- Engineering Technology - S
- General English - A

G.C.E (O/L) -
- All Common Subjects - A's
- Science - C
- ICT- A
- English Literature - A
- Commerce - B

SOFT SKILLS

- Collaborative Team Player
- Task Prioritization
- Adaptable and Positive Attitude
- Effective Verbal Communication
- Critical thinking

PROFILE

I'm a motivated software engineering student with a strong work ethic, adaptability, and excellent interpersonal skills. Proficient in independent and group work, quick learner and organised with excellent time management.
I am seeking opportunities in software engineering with a focus on quality assurance and software development to enhance my skills and contribute to company growth.

ACADEMIC PROJECTS

- **My Portfolio Website**

  Technologies Used - HTML, CSS and JavaScript

  As a software engineering undergraduate, I designed and developed my portfolio website to demonstrate my skills and provide comprehensive information about myself and my projects. I conducted thorough testing to ensure the website is visually appealing, functional, and operates smoothly for visitors across many devices.

- **BookMate (Mobile App) -**

  Technology Used - React Native Framework (Fronted)

  Bookmate adopted a user-centric strategy, focusing on detailed book information tailored to user-favored genres. The app prioritized UI/UX design principles for a visually appealing interface. Thorough testing, including unit testing and user acceptance testing, ensured bug detection and user satisfaction.

- **TravelBug (Travel-Based Website) -**

  Technologies Used - HTML, CSS, JavaScript, MySQL and PHP

  As a passionate travel enthusiast, I developed a comprehensive travel planning system for Sri Lanka. I consolidated key details on destinations, camping grounds, and hiking spots, simplifying the planning process for fellow explorers. Thorough testing ensured reliability and user-friendliness, empowering travellers to embark on unforgettable adventures with confidence.

TECHNICAL SKILLS

- HTML, CSS, JavaScript, MySQL and PHP.
- Android Application Development using Java and XML.
- Quality Assurance (Manual / Automated).
- UI Design (Figma, Balsamiq) and UX.
- Python.

EXTRA-CURRICULAR ACTIVITIES

- Scouting -
  President's Scout

  (2012 - 2019)

- The Council of Honour of Dharmaraja College, Kandy -
  Treasurer, ICT Coordinator

  (2017 - 2019)

- Lake View Park International Scout Center, Kandy -
  Assistant Scout Leader

  (2018)

- ICT Club of Dharmaraja College, Kandy -
  Member

  (2017 - 2019)

- **BankBoost (Banking-Based Android App) -**

  Technologies Used - Figma, Balsamiq, Java and XML

  I've developed a user-friendly financial app using Android Studio in response to the challenges in Sri Lanka's expanding financial landscape. The app offers up-to-date banking rates and branch locations, aiming to enhance accessibility for users to make informed financial decisions efficiently.
